Fall 2017
GradesFirst Open Lab dates
What is GradesFirst?

GradesFirst facilitates stronger collaborations and gives you the data to measure those collaborations. It's a holistic student support platform which provides you with the tools to identify, intervene, and engage with students to lead them on a successful path, while giving you the ability to measure and assess those relationships to ensure that the intervention is successful.

What GradesFirst can do for you?

- Enhanced Early Alert System to identify at-risk students early in the semester
- Straightforward Advising Summary Reports
- Tracking of specific groups (freshman, honor students, special groups, etc.)
- Track attendance (class, events, workshops, visits, etc.)
